

It's All Connected ... You Should be Too.

Roofing, waterproofing, exterior walls – components of the building envelope – each element is integral to the others. How they are connected is important to the whole. The same is true of RCI members.

RCI is an international association of building envelope specifiers who understand the industry is stronger when designers, manufacturers, and contractors come together to share knowledge and experience with a common goal of making better building enclosures.

- Members throughout the United States and Canada
- Over 30 educational programs annually
- National and regional networking events
- Publishing and speaking opportunities
- Acclaimed technical journal, *Interface*
- Professional registration titles
RRC®, RRO®, RWC®, REWC, RBEC
